

Find the right SHOE SIZE for growing feet

Use our guide to help you order shoes that fit your little one:

1 PRINT

Print this page out on a 8.5" x 11" sheet of paper at 100% scale. Make sure to uncheck "fit to page."

2 PLACE

Place the chart on a solid (not soft) surface. Have your child stand barefoot with the back of their heel on the line at the bottom of the page. Make sure their weight is on both feet and their toes are relaxed.

3 MEASURE

Measure both feet. If they're different sizes, go with the larger one for your child's size.

Zulily tip: Shoe sizes can vary by brand. We recommend comparing your child's measurements here with the size chart of each individual brand as you shop.

PRINT ACCURACY CHECK:

Record your measurements:

RIGHT FOOT SIZE

LEFT FOOT SIZE

If a credit card fits this space, the paper size is correct!
